PROFESSIONAL EXPERIENCE

QUINENCE   **Singapore, Remote**
Founding Software Engineer (Full-Stack)   **June 2022 - Present**
- Built the Modern Fullstack website and backend from scratch using **Remix (React), GraphQL,** and **Postgres** (Supabase). Deployed on **AWS** and **Cloudflare.** Mentored two interns.
- Built backend and DB Schema for **real-time NFT card** game using **GraphQL** and **Postgres** in **NodeJS.**
- Developed a Quiz API with a dynamic question selection algorithm based on the user's real-time performance.
- Built a **CMS using GitHub**: Push content to GitHub, and it gets deployed on Globally distributed **Cloudflare R2**.
- Developed NFT Marketplace Frontend and Blockchain Smart Contract for The Soulless Citadel, supporting bids, listings, and fiat payments; facilitated **2,200+ transactions.**
- Researched and built interactive detailed courses on Remix, GraphQL, and Supabase. Endorsed by Supabase CEO.
- Authored the Minting Smart Contract for The Soulless Citadel, **the third most traded NFT collection** on the Zilliqa blockchain, featuring intricate discount algorithms, resulting in sales of **~$368,940**.

INCREFF   **Bengaluru, India**
SDE-I UI (Intern)   **Jan 2022 - May 2022**
- Built a Point of Sale backend using Java Spring. Built UI for the e-commerce store using Angular.

DIGIMALL   **Gurugram, India**
Software Developer Intern   **Feb 2021 - May 2021**
- Developed and released DigiMall, a quick commerce app on the Google Play Store. Built with **Flutter**.
- Added **location-based data fetching** strategy to show nearby stores in **Firebase Firestore NoSQL** database.
- Worked on building a lightweight **PWA**. Built with **React** and **Semantic UI.**

HOBBY PROJECTS

GITAGPT   Website - Download App - App Source Code
- Built with **Next.js, React Native (app), OpenAI and Firebase**, giving life advice from The Bhagavad Gita. Received **13 Million+ views**. Received good media coverage: TimesNow, Economic Times, News18, MoneyControl and more.

MYPRS   PRs by Kishan **-** Source Code
- The 'link-in-bio' for your Open-Source PRs. Curate a selection of your proudest GitHub PRs, showcase your expertise, and set yourself apart in the crowd.
- Frontend - **Remix (React), TypeScript, TailwindCSS, shadcn/ui, PostgreSQL**

JUMS REBOOT   Download App **-** Source Code
- Developed this highly-rated app (**500+ downloads, 5-Star** Google Play Store rating) for Jadavpur University students, enabling instant access to admit cards, grade cards, and exam schedules.
- Technologies: **Flutter, NodeJS, ExpressJS** for backend server. Deployed on Render.
- **Puppeteer** for running headless chrome in the backend for scraping data. Codemagic for CI/CD.

SNAPSEARCH   Try it **-** Source Code
- SnapSearch is a **Browser Extension** for Arc. It allows users to select text on a webpage and search for it using their preferred search engine in a "Little Arc" window distraction-free. Technologies: **Manifest v3, JavaScript**

EDUCATION

JADAVPUR UNIVERSITY   **Kolkata, India**
Bachelor of Engineering in Printing and Information Technology | CGPA - 8.77   **2018-2022**
